

How Club Locker Venue Scoreboards Work

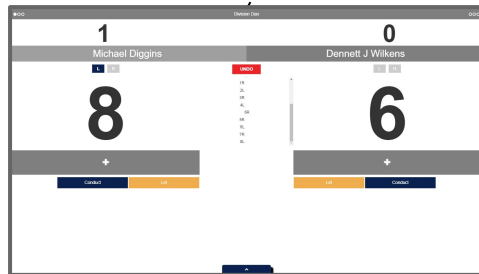

Assumption: To "live score" a match the Club Locker web app server must know of the scheduled match. This match has knowledge of the sport, players, teams, tournament, round, facility, court, referee and/or other data that relates to the specific match. The Club Locker Server is the database of record for match information.

Assumption: Mobile Live Scoring App is connected to the internet in real time throughout the duration of all matches and score keeper updates the score after each point.

Venue Scoreboard, Tournament view
All scores updates every 8-10 secs, includes court assignments, 17 current, recent and future matches. Courts can be targeted to specific scoreboards

1S	COURT 1		Game 1
Dan Heinrich	0 - 0	Paul McGonnigal	
10	Game Point	8	
Dan Heinrich	10	0 0 0 0	
Paul McGonnigal	8	0 0 0 0	

Court Scoreboard, mounted above court
All scores update every 2-4 secs, includes player names, position (bracket), visible from 50+ ft. Customized color scheme shown.

Assumption: Facility (Venue) has installed CL Scoreboards after site assessment and configuration by US Squash. This is a premium product with hardware and software. It includes customization, venue specific branding and technical help and support.

Steps for using Club Locker Scoreboards with Live Scoring:

Event organizer configures Scoreboards prior to event: Tournaments and League matches are all compatible with CL Scoreboards. Organizer uses privileges to select events, adds court assignments for League matches. Scoreboards "listen" for changes to data

Each configured scoreboard in a venue will listen for changes to the events in that venue and will display data appropriate for that event.

Event organizer assigns mobile device to Referee or Marker: Usually the device is already authenticated to local WIFI and the web app is launched, authenticated and event preselected.

Starting a Live Scored match: Authorized user (referee or marker) selects event (tournament, league, venue etc) and then drills down to the match to be live scored. Confirm players, courts, start warmup timer.

Match play begins: Points are entered as they are scored in real time using interface on mobile device. User interface varies based on sport. Scoreboards listen for changes to scores and update content in real time.

Match ends: After last point referee/marker confirms match is over and confirms results.

Court Scoreboards become digital signs when idle

When no live scored match is available for a specific court the scoreboards will become digital signs. Optionally show upcoming court reservations if venue uses Club Locker reservation system.
